COVER PICTURE . . . As a means of increasing spectator interest in tournaments held in Iowa and elsewhere, Lewis Jeter, a rural mail carrier of Afton, Iowa came up with the scoreboard shown on the cover this month. It can be seen clearly from both sides by both pitchers and spectators. Mr. Jeter is very active in pitching circles in the state of Iowa.

Hornell, N. Y. Club Inaugurates New Tournament

The Hornell, N. Y. club will host a new open tournament this month during the annual Chop-A-Rama held in Hornell. It is to have 3 classes and open to anyone able to participate. There will be a \$2.00 entry fee and a pitching fee of \$3.00 graduated down.

The object of this kind of tournament is to attract players whom we hope to interest in the game and also to help do our share to make this event a success. We believe the publicity derived from this will help us in the future.

The recreation program for the summer included horseshoe pitching on the agenda this year along with all other sports free to boys and girls of certain ages. The club members teach them each night through the week until school begins and for their efforts the merchants pay for the time and this in turn, the members turn over to the club for improvements.

Much success has been accomplished and a tournament for the youngsters is planned with the club supplying the prizes. We believe these are the potential pitchers in the future.

In Memoriam

The Iowa Hawkeye association has been saddened by the passing of one of its staunchest members, Otto E. (Tud) Anderson of DesMoines, Iowa. He had been ill for many months. Mr. Anderson was a teacher in the Des-Moines public schools for 35 years prior to his retirement 4 years ago. Although he had been unable to take part in pitching activities, Mr. Anderson was always on hand at any tournament held at Birdland park. His presence will be sadly missed by all those who knew him. The Iowa association together with the NHPA extends heartfelt sympathy to his bereaved family.

1963 Massachusetts Open Championship

The Mass. Open continues to increase in size every year since its begin-ning 5 years ago. The biggest factor in its success seems to be in setting a deadline before the meeting and taking all entries thru the mail. 95 entries were received and in spite of the addition of 4 courts making a total of 20 courts, 15 entries had to be returned because 80 entries is all that can be handled in one day. Next year the meet will be divided into 2 sections. Each section playing on a different Sunday.

Joe Comeau of Lynn, Mass. (1961 champ) and Joe Zichella of the Bronx, New York (1962 champ) matched victories right down to the final game when they met each other. After 50 shoes pitched in this deciding game the score was 26 all but then Comeau got hot throwing 38 ringers out of the final 42 shoes, finishing up with 8 straight double ringers to win the game 50 to 33. Comeau averaged 81% against 75 for Zichella in the final game.

In Class B George Collard of Lincoln, Rhode Island surprised everyone including himself by walking off with top honors, averaging a steady 62% by far the best percentage he has ever pitched in tournament competition. Porter Clark of Maine started off slow losing three out of his first four games but he came back strong winning his last five games and finishing in a three way tie for second place.

NEW, IMPROVED — TED ALLEN HORSESHOES

This shoe established more world's records, and many are still standing, in 28 years than all others combined.

Special Announcement

The price list has been used for 20 months. It was made up before production started the first of 1962. In the drop forge shop, alone, an underestimate was made in cost and work required, plus a new work contract in February, 1963, plus our own slight increase in costs over 20 months, which we always had to absorb ourselves long before a new list was made. It is regretful that a price raise becomes necessary to remain operational.

Starting September 1st, a \$1.00 raise will be in effect in every price on the list. Just make every figure on your past list, \$1.00 more than it is.

A new printed list is available, if requested, we will send it out.

A steel, drop-forged, heat-treated product.

Made in four tempers: Hard, Medium Hard, Medium Soft and Dead Soft. The two softer types have hardened points for long life effectiveness.

Riley Grabs 6 To Win RioGrande Estates (N.M.) Tourney

P. D. Riley of Albuquerque, New Mexico set the pace to sweep the field in the Rio Grande Estates tourney held at Albuquerque, New Mexico. In spite of the strong winds that plagued the courts players managed to salvage a good ringer percentage.

The New Mexico chapter is just beginning to get started in that area and are making great strides.

Hill City, Va. Invitational Meet Huge Success

The Hill City Invitational tournament was held in Lynchburg, Virginia, this year on Saturday, July 13. It was one of the best tournaments ever conducted here in this city.

We had 23 entries out of the 30 pitchers who had been invited and each one gave a good account of themselves. They really represented the best pitchers in the states of Virginia and North Carolina and all games were close and very enjoyable both to the players and the spectators.

All who entered were given an opportunity to pitch either in the Championship Flight or the Class A Division. The Championship division was divided into two flights of eight players each and since one of the qualifiers dropped out, the Class A division was made up of the lower 6 qualifiers.

Trophies were awarded the top three winners in each division and since the weather was with us and the games kept moving, we were able to complete all play by 10 o'clock that evening.

Oklahoma Open Won By M. Reheis

His three games of 81.0, 79.5, and 79.5 were high for the two day tournament. Willis Bettis of Tulsa outlasted pitchers from 4 states in taking the B trophy. PROGRESS — PAST — PRESENT — FUTURE

How important is a decade or more of progress to an organization, or the community or communities it represents? Why do some communities and organizations progress while others stand still and sometimes decline? Is a progressive organization or community, one that has no problems, no emergencies, no setbacks? Of course the answer is just a big NO. Such a community or organization without problems is either standing still or is declining. Our organization has always had, and will have problems, but we must meet them head-on and with positive action. Most problems perhaps stem from the lack of proper planning and of long range which requires looking far into the future and developing step by step a program fitting and proper and of interest to all would be participants, thus creating the tendency to eliminate certain problems as the program takes root.

Who is responsible for this planning, you say? WE ALL ARE, but it must be done collectively by all of us through our regular elected officials, who are none-the-less responsible for effective administration. However, those who may be of the complaining type, as some do among yourselves about this and that, does not justify ones own indifferent role in the making of real progress. Our officers are without question the finest and at all times are doing more perhaps than they should have to do, when there are so many that should, and could help, once given that chance. So it behooves everyone to let your wants be known through your local organization channel so all questions may be brought to the proper attention for action, as you desire it, and by so doing all will have a much closer relationship among all states and our National Association.

Miracles do not just happen. Usually the stage must be set beforehand in some way. Let's not wait for the stage to be set for us but rather we must set the stage ourselves and then act our parts, through the play to conclusion, whereby PROGRESS will be what it means, TO GET AHEAD and stay ahead, or in other words as per the slogan, or part of it, of General Electric Co. — "Progress SHOULD be our most important product."
