OHIO HORSESHOE CO. STA. F. COLUMBUS OHIO

MILWAUKEE

AUG. 16. TO 21. 1948.

According to Mr. Guy C. Wertz, of the Wisconsin State Centennial Sports Committee, the 1948 World's championship Tournament will be held in Milwaukee Aug. 16, to 21. Sponsored by the Wisconsin State Centennial Commission and under the joint direction of the Wisconsin State Horseshoe Pitchers Association and the National Association. The tournament will be finished ten full days before the date usually set for most of the State championships and, for that reason Milwaukee can establish a new attendance record.

Other inducements, three thousand dollars set up by the State to which will be added the entry fees and a percentage of the Stamp fund. Los Angeles, San Francisco, Seattle and Portland Oregon would have to travel about 2200 miles. In the east, Portland Maine 1147, Boston 1081, New York, 930 and Washington D.C. 789. Grand Rapids 268, Indianapolis 276, Detroit 360, Des Moines 371, St. Louis 379 Cleveland 439, Wichita Kans. 811, St. Paul 352, Salt Lake City 1500, Toronto Canada and up-state New York about 700 miles. Chicago 92 miles.

It is most likely that 32 will enter the finals. The number of games played each day will depend on whether the courts will have lights. In any event the decision will rest with the State Assn. or the Centennial Commission. Mr. Wertz has planned some innovations that will add to the general interest. When they have taken more definite shape, they will be published in the NEWS.

As we meet only once each year, the final night exclusive of meetings should be held in a hotel or private dining room, where all should have the opportunity to say what is on their minds. When we could all get better acquainted and a final farewell. It will offer all a chance to chat with others about subjects not concerned with the tournament. There is lots of time to arrange about your vacation and tack on an extra day for the GOOD WILL MEETING. Lets hear from all.

NOW IS THE TIME TO PLAN FOR THE 1949 TOURNAMENT. To those States who may submit bids get started. Especially those who will celebrate their Centennial in 1949.

MURRAY ECHOS

Murray's Mayor, Ernest Smith and Gus Backman Secretary of the Salt Lake City Chamber of Commerce and Director of the Centennial opened the tournament by tossing two shoe each. Neither made a ringer but, they had no chance to warm up. W. A. Banta of Indianapolis, for many years President of Indiana State Assn came with Mrs. Banta in their car with portable sleeping and dining equipment that was envy of all who saw it. Mr. Banta did the work on it last winter. You should have seen the grin on his face at the great showing by Wayne Nelson Indiana State champ.

Harvey W. Clear our new National Secretary has original ideas of equipment. The score board made by him, was in two halves. Each half lined for eight-toen players with chalked squares for 35 games each. When not in use, each half was nested face to face so that rain couldn't reach the scores. That suit case of his contained several gadgets including micrometers to determine whose shoe was nearest the peg and another to measure for ringers. (Editor's note) I wonder if he can come up with a design of scoring devices for each court?

NOTICE TO STATE SECRETARIES. HAVE YOU SENT IN YOUR 1947 MEMBERSHIP LISTS?

JAN. 1, 1948 TO JAN. 1, 1949 N.H.P.A. INVITES 5000 HORSE-

ON THE COURTS

Results of several tournaments were not published in September News, because of lack of space. The Utah State tournament had 16 pitchers in the finals, 8 in class A. and 8 in class B. The tournament was directed by Harvey Clear later, elected Sec. Treas. of the National Horseshoe Pitchers Association.

The N. Y. Police Dept. tournament had the most number of entries since 1929 (The Evening Star of Washington D. C. had 5000 participants in 1929) when they staged their First Annual Horseshoe pitching event, sponsored by their Athletic Club and sanctioned by the Metropolitan AMU. There were 800 of New York's finest entered. The eliminations started the first week in August.

By the second week in September, the first and second best players in each of the nine athletic units pitched 100 shoes. The six highest scorers qualified for the finals in a single round robin. Andrew Lo Piccolo, of Brooklyn a civilian employee by winning all five of his games was crowned champion. Ptl. Robert Prael of the 32nd. Pect. was runner up with only one loss. Jimmy Dagg of the B. C. I. was third. Medals were presented by Plice Commissioner Arthur W. Wallender.

Larry Mahoney, several times New Jersey State champion is back in the game and, doing quite well according to a report of the 1947 New Jersey State tournament. It was held on the Forest Hill Horseshoe Club Courts in Branch Block Park in Newark on September 28. Mahoney was winner and Art Scolari runner up in Class A. J. Mc Crink winner and Paul Puglise runner up in Class B. It appears that New Jersey like all other States active in horseshoe pitching are looking forward to 1948 for the best year of many. And no doubt will send quite a group to the 1948 Championship at Milwaukee August 16, to 21 inclusive. The Standings follow.

The report of the Ohio State League was sent in by John Kovacs of 3303 Arbor Road S. W. Canton Ohio, league president. He will call a meeting early next Spring possibly in Columbus. Plans for reorganization of the present set up, the formation of an Interstate league and State-wide sectional leagues will

be important issues of that meeting. At Murray, turn in any direction you saw several Californians. Fifteen placed in the finals. We haven't exact number that came to Utah from that State. We may be able to print it on another page What we
(.continued page 4.)

CARDS. ONE DOLLAR PER YEAR. FROM JAN. 1. TO DEC. 31.

(continued from page 3.) in mind is, Illinois, Ohio, Iowa, Michigan Missouri and Minnesota have an excellent chance to beat California's 1947 attendance record when we meet at Milwaukee next August. Indiana will make seven States that generally speaking, have less than half the distance to drive to Milwaukee that the Californians had to get to Murray.

John Kovacs also sent in the results of the 1947 Stark County Horseshoe Pitcher's Handicap League with records of 8 teams and 50 players. We will print that in November NEWS.

Washington D. C. held it's first annual Metropolitan Championship October 12, on the Commerce Courts. The first to be staged minus the sponsorship of "The Evening Star". The largest employer in the Nation's Capital is "Uncle Sam". The horseshoe pitching associations formed here in the past seven years have derived their members mostly from Federal Government employees. Due to resignations and relocations of these employees, it was necessary to form a new association each year.

This winter pitchers from nearby Maryland and Virginia will meet with District of Columbia residents to form what promises to be a permanent organization with a larger National membership than ever before. Results of tournament follow.

Medals were presented to winners and runners up in both classes. Gold and bronze medals for Class A were donated by Clarence Pearson prominent Washington Jeweller and a famous athlete of the Nineties. Third and Fourth PLACES in both classes received N. H. P. A. approved pitching shoes. The winner of Class A. in 1948 will be eligible to challenge Clayton C. (Boo) Henson for the Class AA. Metropolitan championship. Wm. K. Cooper of 6209 42nd Ave. Hyattsville Md. Secretary of Prince George County Y. M. C. A. is successfully reviving horseshoe pitching in that county with several tournaments to his credit including 1946 and 1947 County Championships.

WILLIAMSBRIDGE OPEN

One of the greatest exhibitions of horseshoe pitching ever staged in the East, was sponsored by the Williamsbridge Horseshoe Club in September at Reservoir Oval, New York City. The event the Williamsbridge Open Championship was won by Joe Zichella of the Hilltop Club, with Jim McManus of Fort George Club, runner up and Leo Davis of Englewood New Jersey third, in Group One.

The competition in Group Two, resulted in a three-way tie for the honors, which was decided on a ringer percentage basis after each contestant had won five games and lost two. Andy Courtcock of Somerville New Jersey, Charlie Ayvaliotis of Sunnyside and Chas. Seabord of Hilltop finished in that order.

George Schavel of Prospect Park and Owen Farmer of Hilltop were tops in Group Three elimination with ten tossers competing. During the afternoon there were 81 scores of 50 per cent or better. 48 in Group One and 33 in Group Two. Joe McCrink of Fort George Club had high ringer average of the day chalking up 73.4 in his last game. (Summary on page Five.)

SECRETARY'S - PAGE

SANTA CRUZ, CALIF. Dear fellow members The dates for the 1948 tournament in Milwaukee (August 16, to 21, 1948) should get those who land in the finals in prime condition for their State tournaments. As most States hold their main event during the Labor day holidays, there is plenty of time for the most distant traveler to return home before the States championships get under way.

We, for that reason are counting on a record attendance in Milwaukee. We can set another record. The number that enter the Qualification round. The modern record in the trials was set at Moline in 1935 at 78. Two of these did not pitch.

December 31, 1947 the National membership year ends. Help make 1948 the best in our 26 years history. Get your 1948 National card during January. Send one dollar to your State Secretary or, where there is no State Assn. send it to me.

NOTICE TO STATE SECRETARIES— I will appreciate it if those who have not sent in their complete membership list will do so before the New Year. This is important. Until the complete returns are in I cannot determine the amount each member is to receive from the Stamp Fund. And this cannot be paid until the amount due from said members is in the National treasury. I will also need these lists to learn how many copies of the 1947 tournament results should go to each State.

I am devoting all of my time to my office in N.H.P.A. I am sure we can build a strong National Association but, only with the help of every member. In the New Year resolve to get at least one new member. I will do my part. Yours for a National Association in fact, as well as in name. Harvey W. Clear Secretary Treasurer of the National Horseshoe Pitchers Association. 912 Melrose Ave. Santa Cruz. California.

HEATERS HELPED HISTORY

SOME OF US OLD TIMERS CAN REMEMBER HOMES THAT WERE HEATED BY FIRE PLACES. Next, latrobes were invented to fit in the fire-places that furnished heat for three rooms. One on the first floor and the two directly above. Congress almost enacted a law preventing their use because of the danger from coal gas. These were replaced later by hot-air furnaces in the cellar with pipes conveying heat to each room. Then finally steam and hot-water furnaces with radiators in the rooms was the more popular heat for many years.

The most important heater of all, the one that played a great part in shaping our modern history is not mentioned above. Under the influence of it's glowing warmth men have solved serious problems both local and national. In the late 90s and the turn of the century it was set up in a sand box in the center of countless Country Stores, Club Rooms of years ago and other places where men gathered. THE POT BELLIED STOVE. Not only could you feel the heat from it. You could see it.

Around it was formed (unconsciously) the forerunner of the Peoples Forum of today. Freedom of speech and that all men are equal was paramount there. So pull up a chair fellows, relax and let us hear what is on your mind. Help us solve our problems. All of you cannot come to Milwaukee. You can express your opinions, where they will stay put. In the HORSESHOE NEWS. More evidence that the HOT STOVE LEAGUE is a popular idea. Vito Filoccia of 120 Wilson Ave. Brooklyn New York writes about scoring devices used in New York. (continued on page nine)

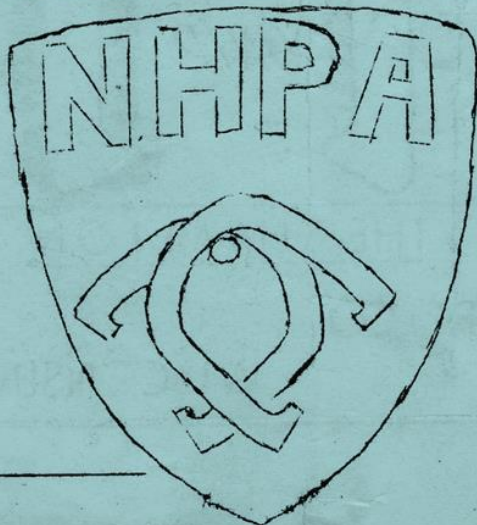

WE ARE REALLY TICKLED PINK, WITH THE QUICK RESPONSE FROM TWO MEMBERS OF THE HOT STOVE LEAGUE(The First) John Landers we had just a small space, and our artist could not do your emblem. We did it. Not as good as yours. IT MAY START OTHERS.

Vito Fileccia and John Landers 11 Moore Terrace, West Orange New Jersey .. are the first to join THE HOT STOVE LEAGUE. Both come up with excellent ideas. Fileccia writes, describing a scoring device used in the New York State tournaments of 1936 - 1937 and 1939. Two wires, one about 7 foot the other 1 foot lower were stapled to posts attached to the fence surrounding the courts. On the north side by the even numbered courts and on the south by odd numbered courts blocks of wood 1 in. wide and 3 in. long were strung on the wires both top and bottom, 45 of them. 5 blocks 4in. in length were placed at the tenth, 20th, 30th, 40th and 50th 50 blocks in all. Similar to the counters used in billiards. Names of players on both sides of pieces of cardboard were attached to the wires in front of each set of counters. The scorer would move the blocks of each player as he scored points after he had placed them on the score sheet. Thus the spectators would know the scores of players on each court at all times. (note) A revised drawing of this will be shown in December NEWS.

Landers submitted three excellent ideas for a National emblem. One of them will be shown at the bottom of this page. Remember a constructive idea or suggestion will make you a member of the "HOT STOVE LEAGUE "

LOOKS LIKE THE NATION'S CAPITAL WILL HAVE A STRONG METROPOLITAN ASSN. FOR 1948. Cecil E. McDougal recently appointed Publicity chief for this section is already in motion. He is posting bulletins in Bowling Alleys in this area, soliciting members for both local and N.H.P.A. and subscribers for THE NEWS. Mac. is strong for the idea that bowlers can keep their swing in the groove by horseshoe pitching in the Summer. It was reported at Murray that Fernando Icais had not pitched a shot for two years but had bowled a lot. Many experts claim it works in reverse. Just as strong a drum beater for horseshoes is Woody Wilson. In 1931 he teamed up with Carl von der Lancken and a guy named Westover, toured the Mid-west meeting all comers. He knows all the answers in the promotion field. His practise matches with Boo Henson caused that Nationally ranked tosser to stack up many unofficial world's records. When you learn the number of years Fred Minor has been pitching and then get a look at him you decide he started pitching when he was two. At his best when the chips are down

In the same category are. Russell Woodley, Matt Stopieski, Louis Mattingly, Pop Rich with a perfect two and three quaters, " Silent " Walter Bahnsen,, E. F. Hughes and Willard Nellis are late comers. Nellis compiled quite a record

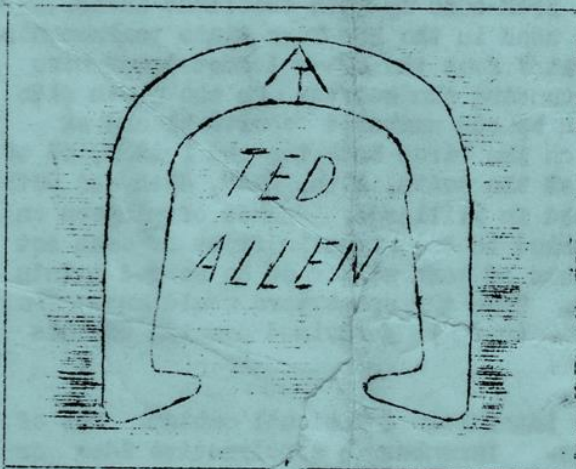

in upstate New York but since moving to Washington his working hours permit time for practise only. Space does not permit the names of many others in the District. Wm. K. Cooper, Sec. Pr. George Co. Md. Y.M.C.A. is bringing the game back to it's former glory of past years when Joe Merryman, Temple Jarrell and Lee Freshman ruled the roost in that sector. Walter and Louis Haley, Everett and Harold Clift and a come lately Francis McDaniel will be active in the 1948 program. Just over the Potomac in Virginia, Ed. Baranowski Northorn Va. State Champ, Pete Heflin winner of the N.H.P.A. tournament, Elmer Swartz and Chas. Lynch will do their bit to boost the new Assn.

(continued in December HORSESHOE NEWS.)

TED ALLEN

DESIGNED BY THE WORLD'S CHAMPION OF
1933 TO AND OF 1940 + 1946

In the 1947 tournament at Murray Utah Ted using the Allen shoe, shared with Stanley DeLeary, a new world's record of 12 consecutive 4-deads or, 4 ringers. In an exhibition, he scored 551 points in the 200 shoe pitch. His average ringer per cent for 35 games is 84.7 topping all others in that tournament.
