This statement should convince you of several things. First, that if we spend every penny we have for advertising, we might be able to buy 1/10th of a page in one issue in a national magazine. Second, that we, as an organization, have fallen down badly in building our national membership. Third, that the manufacturers should double the stamps placed on each pair of shoes, as this would give us an additional \$500 in revenue. Fourth, that the system of refunding stamps to the state be abolished at the next convention. The amount returned is trivial, yet it could be used by the Association for the benefit of all pitchers.

I hope that this statement will be an eye-opener and a challenge to you. The slogan of too many of our public is, "Something for Nothing," and I am afraid this applies to the horseshoe fraternity too. Let's all make a resolution on New Years to do two things: 1. Encourage the manufacturers to double the stamp tax, a voluntary contribution on their part. 2. Each state Association work to double its membership.

May I take this opportunity to wish you and each member of your families a happy holiday season.

## EDITORIAL

To a New Yorker, who is used to cold and blustery weather around this time of the year, November 30th, it seems kind of strange to be sitting here in my shirtsleeves with the windows and door wide open and moisture on my brow, writing for the December issue. Of course, being in Florida accounts for it.

Regardless of the absence of snow, I know it is time to wish all of my friends a Merry Christmass and a Happy and Prosperous New Year. Because I have been Down South for six weeks it is possible that this month's issue of The Horseshoe Pitcher may be a little thinner than usual but will try to make up for it in the next number.

I want to thank my son Julian and Norman Compton, the assistant editor for the help they gave me in getting the magazine out while I was enjoying myself in Florida.

## PRESIDENT'S MESSAGE (N.H.P.A.)

From time to time during the past few years, members of our organization have requested that our association do more national advertising or engage in other money-spending activities for the promotion of the game. At other times, other interested members have demanded that we publish a financial report which I have never approved of in the past, mainly because I felt that revealing our limited strength would not be conducive to promotion.

Since some people have been so insistent on these two items, a public financial report, and an advertising campaign, here it is a financial statement of our receipts, disbursements, and deficits for 1951. The deficit is due mainly to our trying to promote the game for the B pitchers at the National Tournament, because we felt they deserve as much consideration as the A pitchers. After all, they are paying 9/10ths of the dues as far as the National Association is concerned.

## MAINE

By CHARLES S. GERRISH

Here is an arrangement to show results for any number of men in a meet, from two selected ones, or 5, 6, or on up to include all the players if desired. The comparative scores, ringers, etc., are what the readers or any students of the game need or like to peruse.

The grand results Summary for each annual meet could be nicely tabulated in this manner, simply recording the games for Only the Winners, and the information would be in excellent order and would be very interesting statistics for all who are fond of the game. Isn't this method an improvement that might be used at National Tournaments for the annual statistics of results?

## OHIO

By A. B. McCOY

Our State Championship Tournament was held during the first three days of our State Fair, at the Fair Grounds, August 24, 25, 26.

We had 20 players in Class A and 20 in Class B. Ralph Lackey, retained his title that he had had won in 1950. However, he was tied with Stanley Manker and Ellis Hanna at the conclusion of the regular 19 games, and a three way play off was played, and Lackey had enough left to defeat both Manker and Hanna and take the Class A Championship.

Because of lack of time, Class B only played 12 games, and Martin Schneider of Springfield retained his B title that he had won in 1950.

## FIRST NEW YORK STATE CHAMPIONSHIP

Held at Rochester, September 2-4, 1924

Mr. Frank H. Steinfeldt, of Rochester, N. Y. thought a tournament played twenty-seven years ago, with the percentages made in those days would be interesting for comparison purposes with the percentages made by the average horseshoe pitcher today. Looking it over, you will find that not one man out of twenty-one pitchers would be eligible for the World's Tournament!

## WINTER PITCHING

By HOMER A. BROWN

For some time, I have been thinking that probably many horseshoe pitchers would be glad to learn that for a very small outlay of cash they can fix their outdoor horseshoe courts so that they can pitch outside on many days in the Northern States during the cold Winter months. Therefore, I decided to write to you so that through your very interesting magazine you can give pitchers the benefit of this simple and effective method which I have been using successfully for several years here in Cincinnati, Ohio.

All that has to be done is to mix about five pounds of coarse rock salt in the clay around each peg any time before the ground freezes hard and then on many mild days pitching can be enjoyed as much as during the warm weather. I learned about this some years ago from an elderly horseshoe pitcher and I have found by experience that it works out O.K. for the entire Winter with only one application of salt.

Hope that this idea may help the promotion of this most healthful and interesting sport the whole year 'round.

## JAKE'S JOTTINGS

Another horseshoe pitcher, Pat Johnston and his wife, drove his car to Florida and had me and the Missus as first class passengers. Having six weeks before us, we were not in too much of a hurry to reach our destination so after four days of leisurely driving in their 1951 Plymouth, we reached our destination. The first two days, it not only rained, but it RAINED! We finally wound up in a little place called Rio, between another little place called Jensen Beach and the town of Stuart. All these places are known for their good fishing where you can catch fish from a few ounces up to many pounds. If you are looking for a cheap diet, move to Florida and live on fish. I hate them.

While we were here for pleasure, we also had our eyes and ears open for horseshoe activities. Those two movie stars, John Hall and Frances Langford, have cottages to rent to those who come South to spend the Winter. They are located in Jensen Beach. They donated quite a sizable tract of land to the folks down here to make a public park. In this park, the Chamber of Commerce intend to install a ball field, tennis courts, shuffle board courts and horseshoe courts.

When Pat and I heard about this, we immediately got in touch with the gentlemen in whose hands the erection of the horseshoe courts was placed. We found that none of them knew anything about horseshoes or courts or anything else connected with the game. That's where we came in. We drew them a plan and gave them the rules of the game, all from memory, but promised to send him the rules and regulations upon our return home.

Wonder if we will be able to purchase new horseshoes next season? If you get caught with your shoes down I won't be the guy to say "I told you so."

Horseshoe organizations from Maine, Pennsylvania and Texas have given prizes in their tournaments of subscriptions to The Horseshoe Pitcher last season. New Jersey expects to do the same thing during the coming season. How about you? It is good for the game and my pocketbook too.

Charlie one hundred games of fifty points each. They did it in fifteen days time finishing up with one hundred and one games on November 6. They were together on ten different days, playing from two to twenty-one games per day, twenty-one games the last day. In one single session of six hours, on November fifth, they played nineteen games. That's forty games in two days Bub—try that on your front lawn some time! Has any pair outdone this? Both pitchers are of State Championship caliber and both made plenty of ringers. Many of the gamse were in the seventies and eighties. Besides, it was wintry cold so they can testify that the mere end of the Summer is no reason to put away your horseshoes in moth balls. Charlie figures that in those two days of forty games each player tossed about three thousand pounds of steel at forty feet, per day. Doesn't it make you feel all lamed up just to think of it? Charlie says his bones are still creaking.
